

DURA-DRY® 1500

Lower Profile Reduces Operational Costs!

Seams:

- Reinforced non-marking seam
- Open clipper seam

Benefits:

- Eliminates stretching and contraction
- Resists abrasion and contamination
- Endless superior pressure transfer
- Durable, long-lasting performance
- Flexibility in surface attributes
- Reduces drive load and energy costs

Technical Specifications

Weight	3.89 kg / m ²
Caliper	8.0 mm
Permeability	17 CFM

The information presented here is confidential and not binding

Features:

100% heavyweight fiber construction

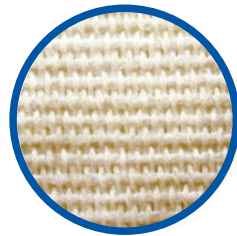

Mechanically and chemically interlocked fiber and base

Heatset for stability

4-layer woven base fabric needed side for improved finish

Woven side for improved wear
