

# Energy breakthrough.

## ***AEROpulse***

Albany Dryer Fabrics

Improving drying efficiency is critical for papermakers. AEROPULSE is a revolutionary design that reduces energy costs and breaks through production barriers. AEROPULSE increases heat transfer to the sheet while simultaneously increasing pocket ventilation. Customers have documented dramatic reductions in steam consumption as well as speed increases as a result of running AEROPULSE. Stop wasting your energy and ask your Albany representative about AEROPULSE.
