Albany Forming Fabrics

KraftLine S618 is the newest member of our KraftLine family. The KraftLine design is a forming fabric based on Albany's patented InLine concept for all packaging grades. In developing the KraftLine S618, our goal was to lower your cost-per-ton, and based on customer feedback we have achieved that. In detailed reports, our customers find that the KraftLine S618 helped them increase speed, improve runnability, lower drive loads, and reduce wear rates for improved life. *KraftLine is your total solutions package!*

KraftLine is a trade name of Albany International Corp.
