

PRESSPLANE 2

PRESSPLANE is a trade name of Albany International Corp.

Lighting the way.

PRESSPLANE 2 utilizes Albany's advances in weaving technology to provide a more uniform base fabric construction and better product consistency. This endless press fabric offers a unique semi-laminated base fabric for improved water removal and press solids. The single monofilament yarns and semi-laminated structure provide exceptional cleanability and long life. PRESSPLANE's unique combination of yarns and weave construction makes for easy installation.
