

## SEAM PRESSPLANE 2

PRESSPLANE is a trade name of Albany International Corp.

## Breakthrough Technology Unlocked

SEAM PRESSPLANE 2 unlocks the next breakthrough of seamed press fabric technology for the Tissue Industry. Utilizing advances in weaving technology, this press fabric provides a more uniform base fabric construction, more uniform loop geometry and better product consistency. SEAM PRESSPLANE offers a unique semi-laminated base fabric for improved water removal and press solids. The single monofilament yarns and semi-laminated structure provide exceptional cleanability and long life. SEAM PRESSPLANE's seam allows safer, easier and quicker installation.
